The Mollerup and Yonk Garage has recently installed a steam vulcanizing plant in their well equipped garage and in addition to giving an excellent automobile repair service, they are now prepared to give service on damaged tires by an expert vulcanizer. Mr. Soren Mollerup, who spent the past few months in Salt Lake City with the United States Tire and Rubber Company learning the business. The Mollerup and Yonk garage management says they will absolutely guarantee all work done by their shop.

Johnson and Johnson, the contractors and builders, have just completed a new bungalow on West First South street for J. C. Fomesbeck, which the latter has built for rent purposes. The building is a six room residence with modern conveniences and makes a very pretty home with its pebble dash finish. It will be occupied by Mr. and Mrs. Elliott who have taken a lease on it. The Johnson Brothers have been given another contract by Mr. Fomesbeck for the erection of a similar house just south of his present residence on First West street. The work will begin at once.

EMBROIDERY PATTERNS

The pattern companies now have such a wide variety of designs in patterns that can be ironed on the material to be embroidered that it is already possible to mark your own linen, without any more paraphernalia than a hot iron and a transfer pattern, and with only the ten cent expense of the pattern.

cannot help but bear results.

The Freshmen class is now undergoing its organization. It boasts of its size and its capability to create a team worthy to buck up against the first team in a way to bring down much applause. The Sophs, Juniors and Seniors also expect some keen competition in the game for the inter class championship. Once the regular team is selected, the drubbing it will get by the second squad and the class elevens ought to round them out into an aggregation capable to hold its own this fall.

DAMAGE BY AIR RAID EXTENSIVE

Entire Block of Warehouses in London Burned; Three Hospitals Endangered

New York, Sept. 20.—A handful of persons, from the millions who saw the first Zeppelin raid over the heart of London, on the night of September 8, reached New York today aboard the steamship Orduna with thrilling stories of the fight in the sky between the invaders and British aircraft and other details of the damage inflicted which had hitherto been suppressed by the British censor.

There were said to be three Zeppelins in the fleet, although those who told the story today had seen but one. They circled over the theatre and hotel district of London, dropping explosive and incendiary bombs. One of the latter it was said, destroyed by fire an entire block of warehouses within five minutes walk of St. Paul's church. An explosive bomb ripped through a six story tenement in the center of the city, shattering the building from top to bottom and killing a dozen or more men, women and children as they slept.

Several bombs, according to the eyewitnesses, fell near three hospitals in a cluster, the central one of which was the Ophthalmic hospital, full of wounded soldiers. All three buildings were rocked to their foundations and not a pane of glass was left intact. The patients had to be

Newcomb's Victory Pleases Philadelphia

Quaker Shot's Capture of National Trapshooting Title Surpasses All Records

When Charles H. Newcomb, the famous Philadelphia trapshooter won the national amateur championship at the recent Grand American Handicap tournament at Grant Park, Chicago, Ill., defeating a field composed of the champions of every state in the Union he brought to this city the first great trapshooting honor it has ever had, says the Philadelphia Press.

No victory was ever more warmly welcomed by the local trapshooters than Newcomb's triumph. The Quaker shot's victory is deserved, as it comes as the climax to ten years of unremitting competition in which he has gained virtually all of the other honors in the big tournaments in this city, State and throughout the country at large.

No shooter with less experience

than Newcomb could ever have won the national championship with such a marvelous score as 99 out of 100. Those shooters who attended the Grand American agree that the pointing, judgment and quickness of the Quaker amateur have never been excelled. On the day the championship event was shot, the wind was blowing fifty miles an hour, according to the weather bureau reports.

This young gale was flying directly in from the lake, lashing the faces and eyes of the shooters and causing the targets to take many queer flips, at the same time scattering the shot pattern in many cases before it could reach the target. Yet Newcomb smashed 91 straight targets, missed his ninety-second and then went out with 99 out of 100, when some of the best shots in America were missing their targets in bunches.

Newcomb admitted after the shoot that the various Pennsylvania championships which he has won, the New York A. C. amateur championship, the Midwinter handicap and the Eastern handicap were nothing in comparison to the severity of the test at Grant Park. Newcomb, though, modestly says that as much credit for this record is due to the unfailing perfection of the Nitro Club speed shell used as to his pointing.
